SMALL FRUIT PLANTS

McNEAL BERRY NURSERY, Hamilton, Montana

The largest grower and shipper of plants in Montana. Our strawberry plants are grown on sandy loam soil, have long, fibrous roots and large, healthy crowns. All plants are well cleaned and tied in bunches of 25. Roots are well packed in damp moss before shipping.

Our plants are dug fresh and shipped as our customers order them. This insures good growing condition.

When you receive your plants, soak the roots in water for several hours before setting them in prepared soil. Keep your plants well watered. A small amount of fertilizer is good for them.

Small orders up to 1000 plants will be sent by parcel post prepaid, when cash accompanies order. Orders above 1000 plants will be shipped by express prepaid. Every shipment carries our Inspection Certificate.

We wish to thank you for past patronage and trust that we may have the pleasure of serving you this season.

EVERBEARING STRAWBERRIES PLANTS

Montana Progressive

One of the best and hardiest varieties for Montana and the Dakotas. You are sure of a crop with this variety. An everbearing strawberry that bears from June first until snow flies. Proved to be one of the best freezing varieties at the State Experiment Station. Berries are firm, highly flavored and very productive.

50 Plants \$2.00, 100 for \$4.00, 500 for \$15.00, 1000 for \$25.00.

All prices postpaid.

Gem

Gem is a very good everbearer, is heavy yielding, rugged plant maker. The Gem is a fine flavored berry, but requires more sugar than some other varieties. 50 plants \$1.00, 100 for \$2.00, 500 for \$8.00, 1000 for \$15.00.

Brune's Marvel
